## IMPORTANT SAFETY INSTRUCTIONS

## READ CAREFULLY AND KEEP FOR FUTURE REFERENCE

The following safety guidelines are intended to prevent unforeseen risks or damage from unsafe or incorrect operation of the appliance. The guidelines are separated into 'WARNING' and 'CAUTION' as described below.

## **Safety Messages**

Read the part with this symbol carefully and follow the instructions in order to avoid risk.

## **WARNING**

This indicates that the failure to follow the instructions can cause serious injury or death.

### **CAUTION**

This indicates that the failure to follow the instructions can cause the minor injury or damage to the appliance.

This symbol is displayed to alert that hot surface. Do not touch surfaces during use in order to prevent burn hazard.

## **WARNING**

## **WARNING**

 To reduce the risk of explosion, fire, death, electric shock, injury or scalding to persons when using this product, follow basic precautions, including the following:

## **Technical Safety**

 This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance.
- To reduce the risk of burns, electric shock, fire, injury to persons or exposure to excessive microwave energy when using the microwave oven, read all instructions before using the appliance.
- During use the appliance becomes hot. Care should be taken to avoid touching heating elements inside the oven. Children less than 8 years of age shall be kept away unless continuously supervised.
- Do not attempt to tamper with, or make any adjustments or repairs to the door, door seals, control panel, safety interlock switches or any other part of the oven which would involve the removal of any cover protecting against exposure to microwave energy.
- Only qualified service person from LG Electronics service centre should disassemble, repair, or modify the appliance.
- It is hazardous for anyone other than a competent person to carry out any service or repair operation that involves the removal of a cover which gives protection against exposure to microwave energy.
- Unlike other appliances, the microwave oven is a high-voltage and a high electrical-current piece of equipment. Improper use or repair could result in harmful exposure to excessive microwave energy or in electric shock.
- If the door or door seals are damaged, the oven must not be operated until it has been repaired by a competent person.
- Do not use your microwave oven to cook eggs in the shell. Pressure can build up inside the shell, causing it to burst.
- Liquids and other foods must not be heated in sealed containers since they are liable to explode. Remove the plastic wrapping from

food before cooking or defrosting. Note though that in some cases food should be covered with plastic film, for heating or cooking.

- Do not use harsh abrasive cleaners or sharp metal scrapers to clean the oven door glass since they can scratch the surface, which may result in shattering of the glass.
- The microwave oven must not be placed in a cabinet. The microwave oven is intended to be used free-standing.
- Keep the appliance and its cord out of reach of children less than 8 years.
- The appliance is not intended to be operated by means of an external timer or separate remote-control system.
- This appliance should not be used for commercial catering purposes.
   This appliance is intended to be used in household and similar applications such as:
  - Staff kitchen areas in shops, offices and other working environments;
  - Farm house;
  - By clients in hotels, motels and other residential environments;
  - Bed and breakfast type environments.
- Do not install this appliance inside mobile vehicles (camping cars).
- When heating food in plastic or paper containers, keep an eye on the oven due to the possibility of ignition.
- The contents of feeding bottles and baby food jars shall be stirred or shaken and the temperature checked before consumption, in order to avoid burns.
- Only use utensils that are suitable for use in microwave ovens. They may heat-up and char.
  - Remove metal twist ties before using the appliance.
  - Do not use wooden containers and ceramic containers that have metallic (e.g. gold or silver) inlays.
  - Metallic containers for food and beverages are not allowed during microwave cooking. Metal objects in particular may arc in the oven, which can cause serious damage.

- 6
- The microwave oven is intended for heating food and beverages.
   Drying of food or clothing and heating of warming pads, slippers, sponges, damp cloth and similar may lead to risk of injury, ignition or fire.
- If smoke is observed (or emitted), switch off or unplug the appliance and keep the door closed in order to stifle any flame.
- Only use the temperature probe recommended for this oven.
  - You can not ascertain that the temperature is accurate with an unsuitable temperature probe.
  - This model does not provide a temperature probe.
- When heating liquids, e.g. soups, sauces and beverages in your microwave oven,
  - Avoid using straight sided containers with narrow necks.
  - Do not overheat.
  - Stir the liquid before placing the container in the oven and again halfway through the heating time.
  - Be careful when handling the container.
     Microwave heating of beverages can result in delayed eruptive boiling, therefore care must be taken when handing the container.
  - After heating, let it stand in the appliance for a short time; stir or shake it again carefully and check the temperature of it before consuming to avoid burns (especially, contents of feeding bottles and baby food jars).
- The oven should be cleaned regularly and any food deposits removed. Failure to maintain the oven in a clean condition could lead to deterioration of the surface that could adversely affect the life of the appliance and possibly result in a hazardous situation.
- Cleaning and user maintenance shall not be made by children unless they are aged from 8 years and above and supervised.
- The appliance shall not be cleaned with a steam cleaner.
- · Steam cleaner is not to be used.
- During use the appliance becomes hot. Care should be taken to avoid touching heating elements inside the oven.

• Only allow children to use the oven without supervision when adequate instructions have been given so that the child is able to use the oven in a safe way and understands the hazards of improper use.

## **Installation**

- Ensure that the outlet socket is properly grounded, and that the earth pin on the power cord is not damaged or removed from the power plug. For more details on grounding, inquire at an LG Electronics customer information centre.
- This appliance must be earthed. The wires in the mains lead are coloured in accordance with the following codes:

- BLUE: Neutral

- BROWN: Live

- GREEN and YELLOW: Earth

- As the colours of the wires in the mains lead of this appliance may not correspond with the coloured markings identifying the terminals in your plug proceed as follows:
  - The wire which is coloured BLUE must be connected to the terminal which is marked with the letter N or coloured BLACK.
  - The wire which is coloured BROWN must be connected to the terminal which is marked with the letter L or Coloured RED.
  - The wire which is coloured GREEN & YELLOW or GREEN must be connected to the terminal which is marked with the letter G or earth symbol.

## Earth symbol

- This appliance incorporates an earth connection for functional purposes.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent of similarly qualified persons in order to avoid a hazard. Improper use may cause serious electric damage.
- The appliance is supplied from a cord extension set or an electrical portable outlet device, the cord extension set on electrical portable

- outlet device must be positioned so that it is not subject to splashing or ingress of moisture.
- If the power cord is damaged or the hole of the outlet socket is loose, do not use the power cord and contact an authorized service centre.

## **Operation**

- Children should not allow to play with accessories or hang down from the door or any part of the appliance.
- When the appliance is operated in the combination mode, children should only use the appliance under adult supervision due to the temperatures generated.
- Never operate the appliance when it is empty. Food or water should always be in the appliance during operation to absorb the microwave energy.
- Do not operate your appliance if it is damaged. It is particularly important that the oven door closes properly and that there is no damage to the: (1) door (bent), (2) hinges and latches (broken or loosened), (3) door seals and sealing surfaces. It could result in harmful exposure to excessive microwave energy.
- Do not use the appliance for the purpose of dehumidification. (ex. Operating the microwave oven with wet newspapers, clothes, toys, electric devices, pet or child etc.) It can be the cause of serious damage to safety such as a fire, a burn or a sudden death due to an electric shock.
- Be certain to use proper accessories on each operation mode.
   Improper use could result in damage to your appliance and accessories, or could make spark and a fire.

## **CAUTION**

## **A** CAUTION

 To reduce the risk of injury to persons, malfunction, or damage to the product or property when using the appliance, follow basic safety precautions, including the following:

## **Installation**

- Install the appliance according to the installation requirements that are in this manual.
- Allow at least 8 cm from the front of the oven door to avoid accidental tipping of the appliance.
- The turntable must always be in place when you operate the appliance.
- Do not block an exhaust outlet that is located on the top, bottom or side of the appliance.
- Do not place any object (such as kitchen towels, napkins, etc.) between the appliance front face and the door.
- In order to avoid a hazard due to inadvertent resetting of the thermal cut-out, this appliance must not be supplied through an external switching device, such as a timer, or connected to a circuit that is regularly switched on and off by the utility.

## Operation

- Do not touch the appliance (including the oven door, outer cabinet, rear cabinet, oven cavity, accessories and dishes) during grill mode, convection mode and auto cook operations. The temperature of accessible surfaces may be high when the appliance is operating. There is the danger of a burn unless wearing thick culinary gloves.
- Do not place an object(a book, a box, water bottle, vase etc.) on the appliance. The appliance may overheat or catch fire or the object may fall, causing injury to persons.
- Do not operate the appliance with the door open. It could result in harmful exposure to excessive microwave energy.
- Set the cooking times correctly. The small amounts of food require shorter cooking or heating time. Over cooking may result in the food catching on fire and subsequent damage to your appliance.
- Do not use recycled paper products. They may contain impurities which may cause sparks or fires when used in cooking.
- Do not cook food wrapped in paper towels or newspaper, unless your cook book contains instructions for the food you are cooking.

- Do not use newspaper in place of paper towels for cooking.
- Do not use the appliance to dry newspapers or clothes. They may catch fire.
- Do not cook eggs in their shell. Eggs in their shell and whole hardboiled eggs should not be heated in microwave ovens since they may explode, even after microwave heating has ended. Pressure will build up inside the egg which will burst.
- Do not attempt deep fat frying in your appliance. This could result in a sudden boil over of the hot liquid.
- Pierce the skin of potatoes, apples or any such fruit or vegetables before cooking. They could burst.
- If smoke is observed (or emitted), switch off or unplug the appliance and keep the door closed in order to stifle any flame.
- Follow exact directions given by each manufacturer for their popcorn product.
  - Never use a brown paper bag for popping corn.
  - Never attempt to pop leftover kernels.
  - Do not leave the appliance unattended while the corn is being popped.
  - If corn fails to pop after the suggested times, discontinue cooking.
  - Overcooking could result in the corn catching a fire.
- The power connection may be achieved by having the plug accessible or by incorporating a switch in the fixed wiring in accordance with the wiring rules. Using improper plug or switch can cause an electric shock or a fire.
- All air vents should be kept clear during cooking. If air vents are covered during appliance operation the appliance may overheat.

## Maintenance

- If it is necessary to take precautions during user maintenance, appropriate details shall be given.
- Do not rinse containers, tray and rack by placing them in water immediately after cooking.

- Unplug the power plug and allow it to cool before cleaning.
- Always use gloves when removing food and accessories after cooking as the oven and accessories will be very hot.
- Allow the turntable to cool before removing it from the appliance.
- Do not allow food or cleaner residue to accumulate on sealing surfaces of the appliance.
- Keep the inside and outside of the appliance clean.

## Cleaning

Keep the oven clean inside and outside. Take special care to keep the inner door panel and the front frame free of food or grease build-up. Clean your oven weekly or more often, if needed.

 Abrasive cleansers, steel wool pads, gritty wash cloths, some paper towels, etc., can damage the control panel and the interior and exterior of the oven.

## **Cleaning the Interior**

Use a damp cloth to clean the surfaces of the door and wipe out crumbs between the door and the frame. Remove greasy spatters with a soapy cloth then rinse and dry.

- Wipe spatters immediately with a wet paper towel, especially after cooking chicken or bacon.
- If steam accumulates inside or outside of the oven door, wipe the panels with a soft cloth.

## Cleaning the Exterior

Clean the outside of the oven with soap and water. Rinse with clean water and dry with a soft cloth or paper towel.

- Do not allow the water to seep into the ventilation openings to prevent damage to the operating parts inside the oven.
- The door and door seals should be kept clean. Use only warm, soapy water, rinse then dry thoroughly.
- Frequently wipe metal parts with a damp cloth.

## **Cleaning the Control Panel**

Open the door to prevent the oven from accidentally starting. Wipe with a damp cloth followed immediately by a dry cloth. Press **STOP** or **STOP/Clear** after cleaning.

## **Cleaning the Accessories**

Wash the glass tray and rotating ring in mild, sudsy water. For heavily soiled areas, use a mild cleanser and scouring sponge. Dry completely before use.

• The glass tray and rotating ring are dishwasher safe.

## CARING FOR THE ENVIRONMENT

## **Disposal of Your Old Appliance (as per e-waste Rules)**

1. When this crossed out wheeled bin symbol is depicted on the product and its operator's manual, it means the product is covered by E-Waste Management Rules India published by MoEF & CC, Govt. of India and are meant to be recycled, dismantled, refurbished or disposed off.

### 2. Do's

- a. The product is required to be handed over only to the authorized recycler for disposal.
- b. Keep the product in isolated area, after it becomes non-functional/ unrepairable so as to prevent its accidental breakage.

## Don'ts

- a. The product should not be opened by the user himself/herself, but only by authorized service personnel.
- b. The product is not meant for re-sale to any unauthorized agencies/ scrap dealer/kabariwalah.
- c. The product is not meant for mixing into household waste stream.
- d. Do not keep any replaced spare part(s) from the product in exposed area.
- 3. Any disposal through unauthorized agencies/person will attract action under Environment (Protection) Act 1986.

- 4. This product is complied with the requirement of Hazardous Substances as specified under E-Waste Management Rules India published by MoEF & CC, Govt. of India.
- 5. To locate a nearest collection centre or call for pick-up (limited area only) for disposal of this appliance, please contact No. 08069379999, Toll Free No. 1800-315-9999 for details. All collection centre and pick up facilities are done by third parties with LG Electronics India Ltd. Merely as a facilitator. For more detailed information, please visit: <a href="http://www.lg.com/in.">http://www.lg.com/in.</a>

## अपने पुराने उपकरण का निपटान (ई- अपशिष्ट नियमों के अनुसार)

## **INSTALLATION**

## **Product Overview**

The appearance or components of the appliance may differ from model to model.

## **Front View**

- Control Panel
- 2 Mica Sheet
- 3 Rating Label
- Safety Door Lock System
- Window

## **▲** WARNING

· Do not operate the oven when it is empty or without the glass tray. It is best to leave a glass of water in the oven when not in use. The water will safely absorb all microwave energy, if the oven is accidentally started.

## **A** CAUTION

 To avoid risk of personal injury or property damage, do not use stoneware, metal cookware, or metal rimmed cookware in the oven.

### NOTE

 Do not remove the mica sheet from the inside cavity of the oven. It is there to protect the microwave components from food spatters.

## Accessories

- 1 Glass Tray
- 2 Rotating Ring
- 3 High Rack
- 4 Low Rack

## **Accessories Guied**

	Microwave	Grill	Convection	Grill Combination	Convection Combination
Glass Tray	0	0	0	0	0
High Rack	-	0	0	0	0
Low Rack	-	0	0	0	0

- O: Acceptable
- · -: Not Acceptable

## **A** CAUTION

- Do not use the microwave oven without the glass tray and rotating ring.
- Be certain to use proper accessories on each operation mode. Improper use could result in damage to your oven and accessories, or could make spark and a fire.

## **Specifications**

Power supply and power consumption may vary depending on the model purchased. Refer to the labels for details.

## MC2846BD MC2846BV MC2846SL MC2846BG MC2846BR Model

Microwave Output: Max. 900 W\*1

Frequency: 2450 MHz\*2

- Dimensions (W x H x D): 510 mm x 308 mm x 526 mm
- **Power Supply**: 230 V~ 50 Hz
  - Power Consumption: Microwave 1350 W, Grill 1200 W, Convection 1950 W, Grill Combination 1350 W, Convection Combination 1950 W
- \*1 IEC 60705 RATING STANDARD. Specifications are subject to change without prior notice.
- \*2 Microwave Frequency: 2450 MHz +/- 50 MHz (Group 2 / Class B)

Group 2 equipment: group 2 contains all ISM RF equipment in which radio-frequency energy in the frequency range 9 kHz to 400GHz is intentionally generated and used or only used, in the form of electromagnetic radiation, inductive and /or capacitive coupling, for the treatment of material or inspection/analysis purposes.

Class B equipment is equipment suitable for use in domestic dwellings and domestic dwellings directly connected to a low voltage power supply network which supplies buildings used for domestic purposes.

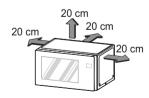

### NOTE

 When operating at 100% and 80% power levels for prolonged periods, the output power will be reduced gradually to help prevent the unit from electrically overheating.

## **Installation Requirements**

### **Installation Location**

- Place the microwave oven on a flat surface with more than 85 cm height.
  - The front of the oven should be at least 8 cm from the edge of the surface to prevent tipping.
- 2 Allow at least 20 cm from the top, 20 cm from the sides, and 20 cm back of the oven for proper ventilation.
  - Free airflow around the oven is important.
  - An exhaust outlet is located on bottom or side of the oven. If you use the microwave oven in an enclosed space or cupboard, the air flow for cooling the product could be worse. It may result in lower performance and reduced service life.

- 3 Place the rotating ring inside the oven and place the glass tray on top.
- **4** Insert the power plug into an outlet.

- Do not block the outlet to prevent damage the oven.
- Make sure the microwave oven is the only appliance connected to the socket.
- If your oven does not operate properly, unplug it from the electrical socket and then plug it back in.

### NOTE

- Do not place oven above a gas or electric range.
- The setting of the cooking time should be shorter than common microwave ovens (700 W, 800 W) due to the relatively high output power of the product.

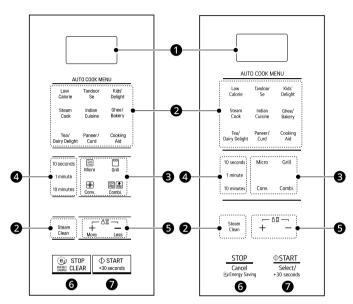

## **Radio Frequency Interference**

- When operating the microwave oven, If you use a product such as radio, TV, wireless LAN, Bluetooth, medical equipment, wireless equipment etc.
- Using the same frequency as the microwave oven, the product may receive interference from these products. This interference does not indicate a problem of the microwave or the product and is not a malfunction. Therefore, it is safe to use. However, medical equipment may receive interference as well, so use caution when using medical equipment near the product.

## **OPERATION**

## **Control Panel**

### **Control Panel Features**

### 1 Display

Shows the time of day, cooking time settings, and selected cooking functions.

### 2 Auto Cook Mode

Press the buttons to select preprogrammed cook for popular food items.

### Cook Mode

Select a cooking mode for the microwave oven, grill, grill combination, convection, and convection combination mode.

### 4 Time

Select cooking time of a recipe.

### 6 More/Less

Set cooking time, quantity, or weight.

### **6** STOP

Stop the oven or clear all entries.

### **Energy Saving**

Allows to save energy.

### **3** START

Press this button to start the oven, enter amounts, or cook at 100% cook power for 30 seconds.

 If you press this button during cooking to increase cook time by 30 seconds. (Up to 99 minutes and 59 seconds)

## **Display Icon**

### NOTE

- A beep sounds each time you press a key. A melody signals the end of a timer or a cooking cycle.
- This oven has a built-in safety interlocks to prevent exposure to excessive microwave energy. The oven will automatically turn off any cooking when the door is opened.

## **Before Use**

### **Microwave Power Levels**

This microwave oven is equipped with 5 power levels to give you maximum flexibility and control over cooking. See the table for suggested power levels for various foods.

 When operating at 100% and 80% power levels for prolonged periods, the output power will be reduced gradually to help prevent the unit from electrically overheating.

Power Level	Use
High 900 W (100%)	<ul> <li>Boiling water.</li> <li>Browning ground beef.</li> <li>Cooking poultry pieces, fish, vegetables, and tender cuts of meat.</li> </ul>
720 W (80%)	<ul> <li>All reheating.</li> <li>Roasting meat and poultry.</li> <li>Cooking mushrooms and shellfish.</li> <li>Cooking foods containing cheese and eggs.</li> </ul>
540 W (60%)	<ul><li>Baking cakes and scones.</li><li>Preparing eggs.</li><li>Cooking custard.</li><li>Preparing rice, soup.</li></ul>
360 W (40%)	<ul><li> All thawing.</li><li> Melting butter and chocolate.</li><li> Cooking less tender cuts of meat.</li></ul>
180 W (20%)	<ul><li>Softening butter and cream cheese.</li><li>Softening ice cream.</li><li>Raising yeast dough.</li></ul>

## **Child Lock**

Use this safety feature to lock the control panel and prevent the oven from being turned on when cleaning the oven or prevent children from unsupervised use of the oven.

### **Setting Child Lock to ON**

- 1 Press **STOP**.
- **2** Press and hold **STOP** until a **L** appears in the display (approximately 3 seconds).

### **Cancelling Child Lock**

Press **STOP**, and hold until a **L** disappears in the display (approximately 3 seconds).

### NOTE

- If set, the time of day reappears in the display after 1 second.
- If the oven is locked, a **L** appears in the display when any key is pressed.
- · Unlock the oven to resume normal use.

## **Quick Start**

## **Quick Start Feature**

This feature allows you to set 30-second intervals of High power cooking with each press of the **START** button.

### Cooking for 2 Minutes on High Power

- 1 Press **STOP**.
- 2 Press **START** four times.
  - The oven starts cooking and the time counts down in the display.

### NOTE

- The oven will immediately start cooking for 30 seconds on high power.
- Press START repeatedly to extend the cook time by 30 seconds every time the button is pressed.
- The cook time can be extended to 99 minutes and 59 seconds.

## **Manual Cooking**

When not using the auto cooking functions, the cooking time and power level are set manually.

1 Press STOP.

- Press Micro until a desired power level appears in the display.
- 3 Press Time to select a desired time, and press START.
  - When cooking is complete, a chime sounds and End appears in the display window. End remains in the display and the chime repeats every minute until the door is opened, or any button is pressed.

### NOTE

 If a power level is not selected, the oven defaults to High power.

## **Grill Cooking**

This feature allow you to brown and crisp food quickly without preheating.

- 1 Press STOP
- 2 Press Grill.
- 3 Press Time to select a desired time, and press START.

## **A** CAUTION

 Always use gloves when removing food and accessories after cooking as the oven and accessories will be very hot.

### NOTE

 The rack can be used in grill and grill combination cooking. Place the rack on the glass tray.

## **Grill Combination Cooking**

This feature allow you to combine microwave cooking with the grill to cook quickly.

- 1 Press **STOP**.
- 2 Press Combi.
- 3 Press Grill.
- 4 Press Micro until a desired power level appears in the display.
  - Microwave power level code: 180 W, 360 W, 540 W
- 5 Press Time to select a desired time, and press START.

## **A** CAUTION

- Always use gloves when removing food and accessories after cooking as the oven and accessories will be very hot.
- The rack can be used in grill and grill combination cooking. Place the rack on the glass tray.

## **Convection Cooking**

This feature allow you to cook food with hot blast heating.

## To preheat the oven

- 1 Press **STOP**.
- 2 Press Conv..

- 3 Select a desired temperature by using **More/ Less**, and press **START** to temperature confirmation.
- 4 Press START.
  - Preheating will be started with displaying Pr-H .
  - The oven will beep when the desired temperature is reached. It will take a few minutes to reach the selected temperature.
  - Once it has reached correct temperature, place food in your oven and to start cooking.

## To cook food using the convection mode

- 1 Press **STOP**.
- 2 Press Conv..
- 3 Select a desired temperature by using More/ Less, and press START to temperature confirmation.
  - If you do not set a temperature your oven will automatically select 180 °C.
- 4 Press **Time** to select a desired time, and press **START**.

## **A** CAUTION

- Always use gloves when removing food and accessories after cooking as the oven and accessories will be very hot.
- The low rack can be used in convection, and convection combination cooking. Place the low rack on the glass tray.

### NOTE

- The convection oven has a temperature range of 40 - 230 °C.
- The oven has a ferment function at the oven temperature of 40 °C. You may wait until the oven is cool because you cannot use a ferment function if the oven temperature is over 40 °C.

# Convection Combination Cooking

This feature allow you to combine microwave cooking with the hot blast heating to cook quickly.

- 1 Press **STOP**.
- 2 Press Combi...
- 3 Press Conv.
- 4 Select a desired temperature by using More/ Less.
- Press Micro until a desired power level appears in the display.
  - Microwave power level code: 180 W, 360 W, 540 W
- 6 Press Time to select a desired time, and press START.
  - During cooking you can turn the dial to adjust the cooking time.

## **A** CAUTION

- Always use gloves when removing food and accessories after cooking as the oven and accessories will be very hot.
- Be careful when removing food as the container will be hot.

 The low rack can be used in convection, and convection combination cooking. Place the low rack on the glass tray.

## **Energy Saving**

The microwave oven allows you to save energy by display off when not cooking in oven.

- When door open condition (Lamp/LED on and display on)
  - 1 Press **STOP**.
  - 2 Lamp/LED off and display off.
  - 3 Press any button on control panel, display shows STOP.
- When door close condition (Lamp/LED off and display on)
  - 1 Press **STOP**.
  - 2 Lamp/LED off and display off.
  - 3 Press any button on control panel, display shows **STOP** related display and Lamp/LED is turned off.
- When door is open (Lamp/LED and display on)

chopped onions, salt, red chilli powder, oregano, sugar, chilli sauce (as per taste), 1 tbsp garlic paste, 2
tbsps tomato sauce, a pinch ajwain. Mix well and microwave at 100% for 5 minutes.

# **[**□ | ]: Cottage Cheese Tortellini

• Weight Limit: 8 Pc (40-50 g each)

	List	Weight
For Dough	Weight Limit	8 Pc
	Maida	1 cup
	Egg	1 no.
	Olive oil	1 tbsp
	Salt	As per taste
	Water (to knead the dough)	As required
For Stuffing	Blanched spinach	0.5 cup
	Paneer (roughly mashed)	100 g
	Olive oil	1 tbsp
	Garlic (minced)	1 tbsp
	Salt and pepper	As per taste
For Sauce	Blanced tomatoes (skin removed)	5 nos.
	Garlic pods	8-10 nos.
	Coriander leaves (fresh)	1 tbsp
	Olive oil	1 tbsp
	Chilli flakes	1 tsp
	Oregano	0.5 tsp
	Salt, pepper	As per taste

### Instructions

## **Pre-Preparation for Stuffing:**

- In a Microwave safe glass bowl take olive oil and minced garlic, mix and microwave 100% for 2 minutes. Add mashed paneer and blanched and chopped spinach, salt and pepper. Mix well and microwave 100 % for 2 minutes.
- 2) In another bowl take maida, salt, beaten egg and olive oil. Mix well and knead a firm dough adding enough water. Cover and keep aside for 10-15 minutes.
- Divide the dough into 5-6 equal sized balls and roll out each ball into a long and rectangular strip 3) (approx. 0.65 mm broad) and cut into squares.
- Fill each square shape with spinach and cottage cheese stuffing (1 tsp). Wet the edges with little water 4) and cover with another square and seal it by pressing tightly. There should be no air-bubble left within. Make all tortellinis following same procedure.
- Take 500 ml water in a Microwave safe bowl and keep inside the microwave. Select category, then 5) press start.

### **76** OPERATION

- 6) When beeps, put the tortellinis in the boiling water. Cover, then press start
- 7) When beeps, remove and strain the tortellinis and place in a serving dish and keep aside covered
- 8) Blend together blanched tomatoes, garlic pods, coriander leaves with a blender. Take this puree in a Microwave safe bowl, add olive oil, salt, pepper oregano and chilli flakes. Mix well ,then press start.
- 9) When cooking ends, pour this sauce over the cooked tortellini and serve hot

- 2) When beeps, add mint leaves. Press start. When beeps add honey to it. Serve hot.

1 cup tea = 150ml approx

## Paneer/Curd

### PA I: Paneer

• Weight Limit: 0.5 kg

· Utensil: Microwave safe glass bowl

### Ingredients

List		Weight
For Paneer	Weight Limit	0.5 kg
	Milk	500 ml
	Lemon juice/Vinegar	4 tbsps

### Instructions

- 1) In a Microwave safe glass bowl add milk and lemon juice/vinegar. Select menu, then press start.
- 2) When it gives beeps, stir it and again press start.
- 3) When beeps, remove the bowl, then strain in a muslin cloth and press it.

## PA2: Masala Paneer

· Weight Limit: 0.5 kg

· Utensil: Microwave safe glass bowl

### **Ingredients**

List		Weight
	Weight Limit	0.5 kg
	Milk	500 ml
For Masala Paneer	Curd	2 tbsps
	Coriander powder	1 tbsp
	Jeera powder	1 tsp

### **Instructions**

- 1) In Microwave safe glass bowl add milk. Select category, then press start.
- 2) When it gives a beep, remove and add curd, coriander and jeera powder. Press start. When beeps, remove and strain and press in a muslin cloth.

## [U I: Curd

• Weight Limit: 0.5 kg

· Utensil: Microwave safe glass bowl

List		Weight
	Weight Limit	0.5 kg
For Curd	Milk	500 ml
	Starter curd	2 tbsps

### Instructions

- 1) In a Microwave safe glass bowl add milk and select menu, then press start.
- 2) When beeps add starter culture of curd for inoculation and stir it. Again press start.
- 3) Now take out the bowl and keep it in a casserole and store in warm place for proceeding appropriate setting temperature and time for 5-6 hours

## [비군: Flavoured Yoghurt

- Weight Limit: 0.6 kg
- Utensil: Microwave safe glass bowl, Low rack

### **Ingredients**

List		Weight
For Flavoured Yoghurt	Weight Limit	0.6 kg
	Curd	200 ml
	Condensed Milk (Milkmaid)	100 ml
	Fresh cream	200 ml
	Flavours (Vanilla, Strawberry, Pineapple essence)	As per choice (0.5 tsp)

### Instructions

- 1) In a Microwave safe glass bowl mix all the ingredients. Beat well till smooth.
- 2) Select menu, then press start. (Pre-heat process)
- 3) When beeps, keep the Microwave safe glass bowl on low rack and keep it in microwave. Press start.
- 4) When cooking ends, take out and allow to come to room temperature. Keep in freezer 1 hour.

### NOTE

 In case you use strawberry essence, add a pinch of pink food color to add color to the yoghurt. For pineapple youghurt, add pineapple slices during the time serving.

# **Cooking Aid**

## 비 l: Keep Warm

• Weight Limit: 0.3 kg

· Utensil: Microwave safe bowl

List		Weight
For Keep Warm	Weight Limit	0.3 kg

### Instructions

1) Any cooked food with cover (Rice, Dal, Subzi, Halwa, Upma etc.) Select category, then press start. When beeps, mix well, then press start. When beeps, mix well, then press start.

# 비[2: Defrost Veg

Weight Limit: 0.2 ~ 0.5 kg
Utensil: Microwave safe bowl

List		Weight
For Defrost Veg	Weight Limit	0.2 ~ 0.5 kg

### Instructions

Veg - (Paneer, Green Peas, Corn etc.)

1) Take in Microwave Safe Bowl, select category and weight, then press start.

2) When beeps, turn the food. Press start.

## 비[]: Defrost Non-Veg

• **Weight Limit**: 0.5 ~ 1.0 kg

· Utensil: Microwave safe bowl

List		Weight
For Defrost Non-Veg	Weight Limit	0.5 ~ 1.0 kg

#### Instructions

Non-Veg - (Chicken, Mutton etc.)

- 1) Take in Microwave Safe Bowl, select category and weight, then press start.
- 2) When beeps, turn the food. Press start.

## 비[님: Dehumidification

• Weight Limit: 0.3 kg

· Utensil: Microwave safe bowl

List		Weight
For Dehumidification	Weight Limit	0.3 kg

### Instructions

Namkin, Biscuits, Bhujia, Papad and Wafers etc.

1) In Microwave safe bowl add the food to be dehumidified. Select category and then press start.

### UE5: Disinfect Aid

- Weight Limit:
- Utensil: Microwave safe glass utensil and Empty cavity

### Instructions

- 1) Aid in disinfecting Microwave safe glass utensils Keep the empty utensil and select category, then press start.
- 2) Aid in cleaning the cavity- Keep the cavity empty. Select category, then press start. When time ends (beeps), clean the cavity with damp cloth.

### NOTE

• The Oven has a function disinfect aid which helps in disinfecting the Microwave safe glass utensil thereby giving clean utensils/cavity.

## 비트: Body Massage Oil

• Weight Limit: 0.2 kg

· Utensil: Microwave safe glass bowl

### **Ingredients**

List		Weight
For Body Massage Oil	Weight Limit	0.2 kg
	Garlic	10 pods
	Ajwain	0.5 tsp
	Cloves	2-3 nos.
	Almonds	3-4 nos.
	Mustard oil	1 cup

### Instructions

1) In a Microwave safe glass bowl put all the ingredients. Select category, then press start. Remove when it gives a beep. Keep it for 2 hours. Strain and store in a glass a jar.

# 비디: Yeast Dough

• Weight Limit: 0.3 kg

• Utensil: Microwave safe glass bowl

## Ingredients

List		Weight
For Yeast Dough	Weight Limit	0.3 kg
	Maida	300 g
	Yeast	1 tbsp
	Salt	0.5 tsp
	Sugar	1 tsp
	Water	As required

### Instructions

- In Microwave safe glass bowl add maida, yeast, salt and sugar. Mix well, add water and make a soft dough.
- 2) Select category, then press start. Rest for 3 minutes. Now remove.

# **∐**EB: Boil Potato

Weight Limit: 0.3 kgUtensil: Glass tray

## **Ingredients**

List		Weight
For Boil Potatoes	Weight Limit	0.3 kg
	Potato	300 g

### Instructions

- 1) Take potatoes and pierce with fork or knife from all side and keep in a microwave on a glass tray., then press start.
- 2) Boiled potatoes are ready for use.

# 비디어: Lemon Squeeze

• Weight Limit: 5 pcs

· Utensil: Glass tray

#### **Ingredients**

List		Weight
For Lemon Squeeze	Weight Limit	5 pcs
	Lemon	5 pcs

#### Instructions

- 1) Take 5 no. of lemons and keep on glass tray of microwave oven.
- 2) Now select menu, then press start.
- 3) When beeps, take out lemons and squeeze it to get more juice out of them.

### UE ID: Garlic Peel

Weight Limit: 10 ClovesUtensil: Glass tray

### **Ingredients**

Li	st	Weight
For Garlic Peel	Weight Limit	10 Cloves
	Garlic Cloves	10 nos.

#### Instructions

- 1) Take 10 cloves of garlic and keep in Microwave safe glass tray of microwave oven.
- 2) Select menu, then press start.
- 3) When beeps, take out cloves will slide right out of their skin, hassle free.

### 비디 네: Tear Free Onions

Weight Limit: 5 pcsUtensil: Glass tray

#### **Ingredients**

Li	st	Weight
For Tear Free Onions	Weight Limit	5 pcs
	Onions	5 nos

#### Instructions

- 1) Take 5 onions and pierce it with knife andkeep in Microwave safe glass tray of microwave oven.
- 2) Select menu, then press start.
- 3) When beeps, take out onions and peel it off and chop easily with almost no tears in eyes.

## 비 记: Crispy Nuts

• Weight Limit: 0.1 kg

· Utensil: Microwave safe flat glass dish

### Ingredients

Li	st	Weight
For Crispy Nuts	Weight Limit	0.1 kg
	Nuts	100 g
	Oil	As required

#### Instructions

- 1) In a microwave safe flat glass dish add drops of oil, nuts. Mix well.
- 2) Select category and weight, then press start.
- 3) Serve plain or with chaat masala.

## 비 당: Smooth Honey

· Weight Limit: 0.3 kg

· Utensil: Microwave safe glass Utensils

### Ingredients

List		Weight
For Smooth Honey	Weight Limit	0.3 kg
	Crystallized Honey	300 g

#### Instructions

- 1) Keep Crystallize honey in a microwave safe glass utensil or jar in microwave, then press start.
- 2) Smooth and free flowing honey ready to use.

## Steam Clean

### 5L I: Steam Clean

· Weight Limit: 0.3 kg

• Utensil: Microwave safe bowl

#### **Ingredients**

List	Weight
For Steam Clean	0.3 kg

#### Instructions

- Take 300 ml water in Microwave safe bowl, add 1 tbsp vinegar or lemon juice. Select category and press start.
- 2) When beeps, wipe out with clean napkin. Press start.
- 3) Again wipe out. Take out the plug.

### NOTE

• Use this feature to aid in cavity cleaning

## **Two Recipes for Beginners**

### **Roasted Papad**

### **Papad**

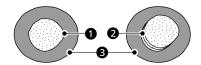

- 1 Place the raw papad at the centre of glass tray.
- 2 Select microwave oven 100% power level and cook time, then press start.
- 3 After papad cooking give standing time of 30-45 seconds.

### **Multiple papads**

Place multiple papads over one another.

### Crispy papad

- 1 Press start once without papad.
- 2 Sprinkle little water or oil over the papad.
- 3 After beep, place the papad at the at the center, then press start.

Papad

- 2 Multiple Papads
- **3** Glass Tray

#### NOTE

- · The cooking time may vary.
  - As per the composition of the papad material.
  - As per the Quantity of papad used.

### **Pop Corn**

- Place the pop corn bag to the glass tray properly as instructed on packing.
- 2 Press start to set 3~4 minutes.
- 3 Remove the bag after poping sound has stopped. Take care that bag corners do not touch sides while rotating.

1 Pop Corn

### NOTE

- Attend poping process carefully.
- Do not overheat as cause flash fire.

# **List of Ingredients**

## Spices

English name	Hindi name

Milk	Doodh
Powdered Sugar	Bura
Sugar	Cheeni
Tamarind	Imli
Теа	Chai
Saffron	Kesar
Sprouts	Ankur
Vinegar	Sirka

## **Utensils Guide**

### Microwave-Safe Utensils

- Ovenproof Glass: Glassware that is heatresistant is microwave-safe. This would include all brands of oven tempered glass utensils.
   However, do not use delicate glassware, such as tumblers or wine glasses, as these might shatter as the food warms.
- Pottery Stoneware Ceramic: Use bowls, cups, serving plates, pottery, stoneware, ceramic, and platters without metallic rim. Many containers made of these materials are microwave-safe, but test them before use.

### Plastic

- Plastic Storage Containers: These can be used to hold foods that are to be quickly reheated. However, they should not be used to hold foods that will need considerable time in the oven as hot foods will eventually warp or melt plastic containers.
- Plastic Cooking Bags: Provided they are specially made for cooking, cooking bags are microwave safe. Remember to make a slit in the bag so that steam can escape. Never use ordinary plastic bags for cooking in the microwave oven, as they will melt and rupture.
- **Plastic Microwave Utensils**: A variety of shapes and sizes of microwave utensils are

- available. You may be able to use items you already have on hand rather than investing in new kitchen equipment.
- Paper: Use paper towels, waxed paper, paper napkins, and paper plates with no metallic rim or design. Paper plates and containers are convenient and safe to use in the microwave oven, provided that the cooking time is short and foods to be cooked are low in fat and moisture. Paper towels are also very useful for wrapping foods and for lining baking trays in which greasy foods such as bacon are cooked. In general, avoid coloured paper products as the color may run. Some recycled paper products may contain impurities which could cause arcing or fires when used in the microwave.
- Tableware: Many containers made of pottery, stoneware and ceramic are also microwave-safe.
   If in doubt consult the manufacturer's literature or perform the microwave test. Do not put plates with painted decoration in the oven, as the paint may contain metal and cause arcing.

### Microwave-Unsafe Utensils

- Metal Containers and Metal Decoration
  - Never use metal or metal-rimmed utensils in the microwave oven.
  - Microwaves cannot penetrate metal. They will bounce off any metal object in the oven and cause arcing, an alarming phenomenon that resembles lightning.
  - Metal shields the food from microwave energy and produces uneven cooking. Also avoid metal skewers, thermometers, foil trays, metal-rimmed or metal-banded dinnerware, casserole dishes, etc. The metal rim interferes with normal cooking and may damage the oven.

## **Testing Utensils before Use**

Most heat resistant and non-metallic utensils is safe for use in your oven. However, some utensils may contain materials that are not suitable for microwave use. Follow the steps below to find out if utensils can be used in the microwave.

- 1 Place the container in question and a glass measuring cup filled with water next to each other inside the oven.
- 2 Heat the container and glass measuring cup for 1 minute at HIGH power.
  - If the water heats up but the container remains cool to the press, the container is microwave-safe.
  - If the temperature of the water does not change but the container becomes warm, it is not safe for use in the microwave oven.

## CAUTION

- Some items with high lead or iron content are not suitable for microwave cooking.
- Utensils should be checked to ensure that it is suitable for use in the microwave.
- Always be careful when taking utensils out of the oven. Some dishes absorb heat from the cooked food and may be hot.

## **Cooking Guide**

## **Cooking Tips**

Carefully monitor the food in the microwave oven when it is cooked. Directions given in recipes to elevate, stir, etc., are the minimum steps recommended. If the food seems to be cooked unevenly, simply make the necessary adjustments to correct the problem.

- Covering: Cover the plate with a lid, parchment paper (not waxed paper) or cling plastic wrap for use in the microwave oven. A cover traps heat and steam, which help to cook the food more quickly.
- Stirring: Stir from the outside towards the center, as food at the outside of the dish heats more quickly.
- Standing Time: Standing time allows foods to finish cooking and also helps flavors blend and develop. Foods are often allowed to stand for 3 to 10 minutes after being removed from the oven.

- Cooking Time: Set the cooking time according to the temperature of the ingredients. Ice-cold ingredients take considerably longer to cook than room temperature ingredients.
- Sprinkling: Low-moisture foods such as roasts and vegetables should be sprinkled with water before cooking or covered to retain moisture.
- Arranging: The upper portion of thick foods will be cooked more quickly than the lower portion.
   Turn food over several times during cooking.
- Piercing: Pierce foods that are enclosed in a shell, skin or membrane before cooking to prevent them from bursting.
  - Such foods include yolks and whites of eggs, clams, oysters, potatoes, and other whole vegetables and fruits.
- Shape of Food: Microwaves penetrate only about 2 cm into food. Only the outer edge of food is cooked by microwave energy; the rest is cooked as the heat moves inward.
  - Place the thickest portions of foods like meat, poultry or fish toward the outside of the utensils to help them cook more evenly.
  - If possible, shape foods into thin rounds or rings.
- Density: Light, porous food such as cakes and breads are cooked more quickly than heavy, dense foods such as roasts and casseroles.
- Bones and Fat: Bones conduct heat and fat cooks more quickly than meat. Take care with bony or fatty cuts of meat.
- Quantity: The more food you place in the oven, the longer the required cooking time.
- Shielding: Cover the corners of square dishes with strips of aluminum foil to prevent overcooking. Do not use too much foil, and make sure the foil is secured to the dish. If the foil gets too close to the oven walls during cooking, it can cause arcing.

## **TROUBLESHOOTING**

## **FAQs**

## **Frequently Asked Questions**

### Q: What's wrong when the oven light will not glow?

A: There may be several reasons why the oven light will not glow. Either the light bulb has blown or the electric circuit has failed.

#### Q: Does microwave energy pass through the viewing screen in the door?

A: No. The holes, or ports, are made to allow light to pass; they do not let microwave energy through.

#### Q: Why does the beep tone sound when a button on the control panel is touched?

A: The beep tone sounds to assure that the setting is being properly entered.

#### Q: Will the microwave function be damaged if it operates empty?

A: Yes. Never run it empty.

#### Q: Why do eggs sometimes pop?

A: When baking, frying, or poaching eggs, the yolk may pop due to steam build up inside the yolk membrane. To prevent this, simply pierce the yolk before cooking. Never microwave eggs in the shell.

#### Q: Why is standing time recommended after microwave cooking is over?

A: After microwave cooking is finished, food keeps on cooking during standing time. This standing time finishes cooking evenly throughout the food. the amount of standing time depends on the density of the food.

#### Q: Why doesn't my oven always cook as fast as the cooking guide says?

A:

- Check your cooking guide again to make sure you have followed directions correctly, and to see what might cause variations in cooking time.
- Cooking guide times and heat settings are suggestions, chosen to help prevent overcooking, the most common problem in getting used to this oven.
- Variations in the size, shape, weight and dimensions of the food require longer cooking time.
- Use your own judgment along with the cooking guide suggestions to test food conditions, just as you
  would do with a conventional cooker.

## **Before Calling for Service**

If following symptoms appear while using the microwave oven, check it one more time. It may not be a failure.

## **Operation**

Symptoms	Possible Cause & Solution	
Microwave oven does	Power cord is unplugged, door is open. Or, cooking time is not set.	
not start	Plug in power cord.	
	Close oven door.	
	Set cooking time.	

Symptoms	Possible Cause & Solution	
Microwave oven does not start	A fuse in your home may be blown or the circuit breaker tripped. Or the appliance is connected to a GFCI (Ground Fault Circuit Interrupter) outlet, and the outlet's circuit breaker has tripped.	
	Check the main electrical box and replace the fuse or reset the circuit breaker.	
	Do not increase fuse capacity. If the problem is a circuit overload, have it corrected by a qualified electrician.	
	Reset the circuit breaker on the GFCI. If the problem persists, contact an electrician.	
Arcing or Sparking	Utensils is not microwave safe. Or, operated the oven when it is empty.	
	Use microwave-safe utensils. When in doubt, test utensils before use.	
	Do not operate oven while it is empty.	
Unevenly Cooked	Utensils is not microwave safe. Or, cooking settings was wrong.	
Foods	Test utensils to make sure it is microwave safe.	
	Do not cook without the glass tray.	
	Turn or stir food while cooking.	
	Defrost food completely before cooking.	
	Use correct cook time and power level.	
Overcooked Foods	Cooking settings and methods are wrong.	
	Change cook time or power level.	
Undercooked Foods	Utensils is not microwave safe. Or, cooking settings was wrong.	
	Test that utensils is microwave safe.	
	Defrost food completely before cooking.	
	Change cook time or power level.	
	Make sure that ventilation ports are not blocked.	

## **APPENDIX**

## Warranty

## **Warranty and Service Information**

### Warranty

The Microwave oven comes with 1 year warranty on all parts (except Plastic parts, Consumables, Loose Plastic Parts, Glass) from the date of purchases on producing the tax paid invoice of the product provided always that the warranty card bears the rubber stamp, date and signature of our authorized dealer.

#### **TERMS & CONDITIONS**

- 1. The warranty is confined to the first purchaser of the Microwave oven only & is non-transferable.
- 2. Repairs & replacements will be carried out through the Authorized Service Centres of LG Electronics India Ltd. (hereinafter referred as LG or LGEIL). Customer may place their service call through the LG customer care or through the dealer from whom the product has been purchased. In case the customer shifts the place of residence during warranty period, it is advised to contact our helpline.
- 3. Repair under warranty shall be carried out by an authorized service personnel only. The details of centralized helplines are attached.
- 4. For units installed beyond municipal limits of the jurisdiction of company's Authorized Service Centre, it is responsibility of the purchaser to contact the nearest authorized service centre and bring the unit to the authorized service at its own cost and risk. All expense incurred in collecting the units or parts thereof from the company's authorized service centre, as well as expenses incurred with deputing of service personnel/ technician toward conveyance and other incidentals etc. will be borne by the customer. Local charges for transportation and handling charges may vary from location to location. Customers are advised to verify before. In case the customer desires to bring the unit on its own to the Authorized Service Centre, the same shall be at its own risks & consequences.
- 5. The concerned authorized service centre will advise the customer whether to effect the repairs at site or at the authorized service centre.
- 6. Call registered with the centralized helpline/Authorized service centre, wherein only cleaning of the unit/parts in the unit due to dust accumulation on portions of the units are not to be considered as defects.
- 7. In case of repairs or replacement of any part/s of the unit, this warranty will thereafter continue and remain in force only for the unexpired period of the warranty. LGEIL may use parts that are new or refurbished and equivalent to new in performance and reliability. Replacement of parts would be purely at the discretion of LGEIL alone. In case the replacement of the entire unit is being made, (subject to the sole discretion of LGEIL), the same model shall be replaced and in the event such model has been discontinued, it shall be replaced with the model price equivalent at the time of purchase.
- 8. In case of any damage to the product/customer abuse/repairs by un-authorized personnel's/ misuse detected/ by the Authorized Service Centre personnel, the warranty conditions are not applicable and repairs will be done subject to availability of parts and on a chargeable basis only.
- 9. This warranty shall not cover any consequential or resulting liability, damage or loss to property or life arising directly or indirectly out of any defect being noticed in the equipment during warranty period of the Microwave oven. The company's obligation under this warranty shall be limited to repair or providing replacement of defective parts only under the warranty period
- 10. The company or its Authorized Service Centre reserves the right to retain any part/s or component replaced its discretion, in the event of defect being noticed in the equipment during warranty period.
- 11. While the company will make every effort to carry out repairs at the earliest, it however is made expressly clear that the company is under no obligation to do so in a specified period of time.
- 12. Warranty does not cover accessories external to the equipment supplied by the dealer.

- 13. If any coloured internal or external components are replaced, there will be commitment to ensure that the shades match with the original or other components. The replaced shades, patterns, tints may vary from the customer's unit due to continuous usage of the unit. Any matching components changed at customer's request will be chargeable basis except the component which actually needed.
- 14. In the event of any unforeseen circumstance, and spares not being available, the company's prevailing depreciation rules will be binding on the purchaser to accept as a commercial solution in lieu of repairs.
- 15. Free Installation or Demo of the product, can be availed only once & within 3 months from the date of purchase.
- 16. Any extended warranty offered by LGEIL has to be supported by relevant proof.
- 17. Warranty shall expire after the warranty period as mentioned above even if the Microwave oven may not be in use for any time during the warranty period for any reason.
- 18. Only courts in state of Delhi and places where LGEIL has its branch office shall have the jurisdiction for settling any claims, disputes arising under the warranty.

### Warranty is not applicable in any of the following cases:

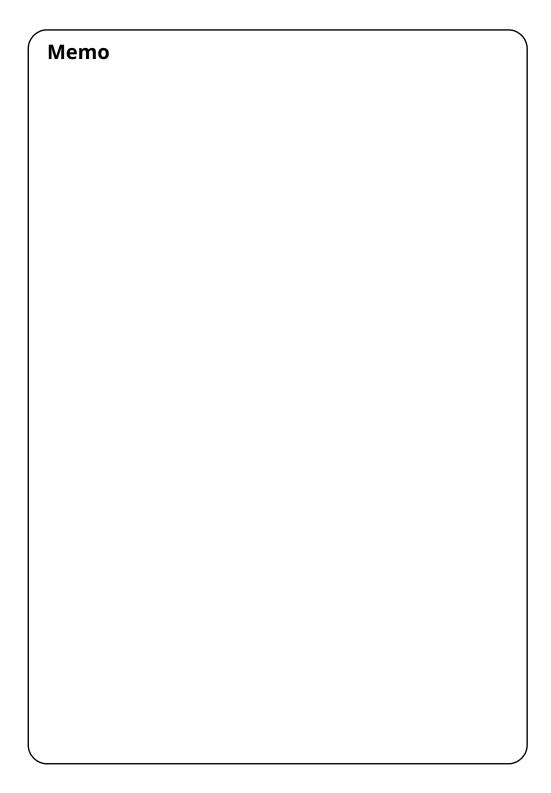

- 1. The warranty card is not completed properly at the time of purchase.
- 2. The completed warranty card is not presented to authorized service personnel at the time of service of the product.
- 3. The product is not operated according to instructions given in the Operating Instruction Booklet/ Owner's Manual.
- 4. The product is used for commercial purposes.
- 5. The product has failed under certain conditions like water logging, flood, fire, misuse etc.
- 6. Defects/malfunction are caused by improper or reckless use, which shall be determined by the company personnel.
- 7. Any repair work is carried out by persons other than authorized service personnel.
